-------------	-------------------

## GENERAL TERMS AND CONDITIONS

### Article I. PARTIES TO THE AGREEMENT

The U.S. Department of Energy Contractor, Stanford (hereinafter referred to as the "Contractor"), has been requested by **Non-Federal Sponsor** (hereinafter referred to as the "Sponsor"), to perform the work set forth in the Statement of Work, attached hereto as Appendix A. It is understood by the Parties that, except for the intellectual property provisions of this Agreement, the Contractor is obligated to comply with the terms and conditions of its M&O contract with the United States Government (hereinafter called the "Government") represented by the United States Department of Energy (hereinafter called the "Department" or "DOE") when providing goods, services, products, processes, materials, or information to the Sponsor under this Agreement.

The obligations of the Contractor shall apply to any successor in interest continuing the operation of SLAC.

### Article II. TERM OF THE AGREEMENT

The Contractor's estimated period of performance for completion of the Statement of Work is \_\_\_\_\_ months. This Agreement shall become effective as of the later of (1) the last of the dates on which it is signed by the Parties hereto, or (2) the date on which it is approved by DOE.

### Article III. COSTS

- A. The Contractor's estimated cost for the work to be performed under this Agreement is \$\_\_\_\_\_.
- B. The Contractor has no obligation to continue or complete performance of the work at a cost in excess of the original estimated cost or any subsequent amendment.
- C. The Contractor agrees to provide at least a \_\_\_\_ days notice to the Sponsor if the actual cost to complete performance will exceed its estimated cost.

### Article IV. FUNDING AND PAYMENT

The Sponsor shall provide sufficient funds in advance to reimburse the Contractor for costs to be incurred in performance of the work described in this Agreement, and the

Contractor shall have no obligation to perform in the absence of adequate advance funds. If the estimated period of performance exceeds 60 days or the estimated cost exceeds \$25,000, the Sponsor may, with the Contractor's approval, advance funds incrementally. In such a case, the Contractor will initially invoice the Sponsor in an amount sufficient to permit the work to proceed for 60 days and thereafter invoice the Sponsor monthly so as to maintain approximately a 60-day period that is funded in advance. Payment shall be made directly to the Contractor. Upon termination or completion, any excess funds shall be refunded by the Contractor to the Sponsor.

#### **Article V. SOURCE OF FUNDS**

The Sponsor hereby warrants and represents that, if the funding it brings to this Agreement has been secured through other agreements or is being secured through existing international agreements, such other agreements do not have any terms and conditions (including intellectual property) that conflict with the terms of this Agreement. If the Work for Others Agreement entered into conflicts with existing International Agreements, the International Agreements' terms and conditions will take precedence.

#### **Article VI. PROPERTY**

Upon termination of this Agreement, property or equipment produced or acquired in conducting the work under this Agreement shall be owned \_\_\_\_\_.

No Federal funds will be used to purchase property or equipment for this agreement. Property or equipment produced or acquired as part of this Agreement will be accounted for and maintained during the term of the Agreement in the same manner as Department property or equipment.

#### **Article VII. PUBLICATION MATTERS**

Either Party may publish Generated Information as defined in Paragraph 1.A of Article XV. The publishing party will provide to the other Party for its review, a copy of the proposed publication 60 days prior to its intended publication. The other Party may request a reasonable delay in publication if the proposed publication contains unprotected patentable information or Proprietary Information provided by either Party.

#### **Article VIII. LEGAL DISCLAIMER NOTICE FOR REPORTS**

The Parties agree that the following Legal Disclaimer Notice shall be affixed to each report furnished to the Sponsor under this Agreement and to any report resulting from this Agreement which may be distributed by the Sponsor:

“This document, and the material and data contained therein, was developed under sponsorship of the United States Government. Neither the United States nor the Department of Energy, nor the Leland Stanford Junior University, nor their employees, nor their respective contractors, subcontractors, or their employees, makes any warranty, express or implied, or assumes any liability or responsibility for accuracy, completeness or usefulness of any information, apparatus, product or process disclosed, or represents that its use will not infringe privately owned rights. Mention of any product, its manufacturer, or suppliers shall not, nor is intended to, imply approval, disapproval, or fitness for any particular use. A royalty-free, non-exclusive right to use and disseminate same, for any purpose whatsoever, is expressly reserved to the United States and the University.”

#### **Article IX. DISCLAIMER**

THE GOVERNMENT AND THE CONTRACTOR MAKE NO EXPRESS OR IMPLIED WARRANTY AS TO THE CONDITIONS OF THE RESEARCH OR ANY INTELLECTUAL PROPERTY, GENERATED INFORMATION, OR PRODUCT MADE OR DEVELOPED UNDER THIS WORK FOR OTHERS AGREEMENT, OR THE OWNERSHIP, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE OF THE RESEARCH OR RESULTING PRODUCT; THAT THE GOODS, SERVICES, MATERIALS, PRODUCTS, PROCESSES, INFORMATION, OR DATA TO BE FURNISHED HEREUNDER WILL ACCOMPLISH INTENDED RESULTS OR ARE SAFE FOR ANY PURPOSE INCLUDING THE INTENDED PURPOSE; OR THAT ANY OF THE ABOVE WILL NOT INTERFERE WITH PRIVATELY OWNED RIGHTS OF OTHERS. NEITHER THE GOVERNMENT NOR THE CONTRACTOR SHALL BE LIABLE FOR SPECIAL, CONSEQUENTIAL, OR INCIDENTAL DAMAGES ATTRIBUTED TO SUCH RESEARCH OR RESULTING PRODUCT, INTELLECTUAL PROPERTY, GENERATED INFORMATION, OR PRODUCT MADE OR DELIVERED UNDER THIS WORK FOR OTHERS AGREEMENT.

#### **Article X. GENERAL INDEMNITY**

The Sponsor agrees to indemnify and hold harmless the Government, the Department, the Contractor, and persons acting on their behalf from all liability, including costs and expenses incurred, to any person, including the Sponsor, for injury to or death of persons or other living things or injury to or destruction of property arising out of the performance of the Agreement by the Government, the Department, the Contractor, or persons acting on their behalf, or arising out of the use of the services performed, materials supplied, or information given hereunder by any person including the Sponsor, and not directly resulting from the fault or negligence of the Government, the Department, the Contractor, or persons acting on their behalf.

## **Article XI. PRODUCT LIABILITY INDEMNITY**

Except for any liability resulting from any negligent acts or omissions of the Government or the Contractor, the Sponsor agrees to indemnify the Government and the Contractor for all damages, costs, and expenses, including attorney's fees, arising from personal injury or property damage occurring as a result of the making, using, or selling of a product, process, or service by or on behalf of the Sponsor, its assignees, or licensees, which was derived from work performed under this Work for Others Agreement. In respect to this Article, neither the Government nor the Contractor shall be considered assignees or licensees of the Sponsor, as a result of reserved Government and Contractor rights. The indemnity set forth in this paragraph shall apply only if the Sponsor shall have been informed as soon and as completely as practical by the Contractor or the Government of the action alleging such claim and shall have been given an opportunity, to the maximum extent afforded by applicable laws, rules, or regulations, to participate in and control its defense, and the Contractor and Government shall have provided all reasonably available information and reasonable assistance requested by the Sponsor. No settlement for which the Sponsor would be responsible shall be made without the Sponsor's consent, unless required by final decree of a court of competent jurisdiction.

## **Article XII. INTELLECTUAL PROPERTY INDEMNITY - LIMITED**

The Sponsor shall indemnify the Government and the Contractor and their officers, agents, and employees against liability, including costs, for infringement of any United States patent, copyright, or other intellectual property arising out of any acts required or directed by the Sponsor to be performed under this Agreement to the extent such acts are not already performed at the facility. Such indemnity shall not apply to a claimed infringement that is settled without the consent of the Sponsor unless required by a court of competent jurisdiction.

## **Article XIII. NOTICE AND ASSISTANCE REGARDING PATENT AND COPYRIGHT INFRINGEMENT**

The Sponsor shall report to the Department and the Contractor, promptly and in reasonable written detail, each claim of patent or copyright infringement based on the performance of this Agreement of which the Sponsor has knowledge. The Sponsor shall furnish to the Department and the Contractor, when requested by the Department or the Contractor, all evidence and information in the possession of the Sponsor pertaining to such claim.

## **Article XIV. PATENT RIGHTS - USE OF FACILITIES (CLASS WAIVER)**

1. The following definitions shall be used for this Clause.

- A. "Facility Contractor" means Leland Stanford Junior University as Operator of SLAC National Accelerator Laboratory operating under DOE Prime Contract No. DE-AC02-76SF00515.
- B. "Subject Invention" means any invention or discovery of the Facility Contractor, or, to the extent the Sponsor or a Facility subcontractor is performing any work under this Agreement, of the Sponsor or Facility subcontractor respectively, conceived in the course of or under this Agreement, or, in the case of an invention previously conceived by the Sponsor or Facility subcontractor, first actually reduced to practice in the course of or under this Agreement. "Subject Invention" includes any art, method, process, machine, manufacture, design or composition of matter, or any new and useful improvement thereof, or any variety of plant, whether patented under the patent laws of the United States of America or any foreign country, or unpatented.
- C. "Patent Counsel" means the DOE/NNSA Patent Counsel assisting the procuring activity which has the administrative responsibility for the Facility where the work under this Agreement is to be performed.

2. Rights of the Sponsor;

A. Election to Retain Rights

Subject to the provisions of paragraph 3 with respect to any Subject Invention reported and elected in accordance with paragraph 4 of this article, the Sponsor may elect to obtain the entire right, title, and interest throughout the world to each Subject Invention and any patent application filed in any country on a Subject Invention and in any resulting patent secured by the Sponsor. Where appropriate, the filing of patent applications by the Sponsor is subject to DOE and other Government security regulations and requirements.

3. Rights of Contractor and Government

A. Assignment to either the Contractor or the Government

The Sponsor agrees to assign to either the Facility Contractor or the Government, as requested by the Facility Contractor, the entire right, title, and interest in any country to each Subject Invention of the Sponsor and to each Subject Invention of the Contractor, where the Sponsor:

- (1) does not elect pursuant to this Clause to retain such rights; or
- (2) elects to obtain title to a Subject Invention pursuant to paragraph 2 but fails to have a patent application filed in that country on the Subject Invention or

decides not to continue prosecution or not to pay any maintenance fees covering the invention.

#### B. Terms and Conditions of Waived Rights

- (1) To preserve the Facility Contractor's and the Government's residual rights to Subject Inventions, and in patent applications and patents on Subject Inventions, the Sponsor shall take all actions in reporting, electing, filing on, prosecuting, and maintaining invention rights promptly, but in any event, in sufficient time to satisfy domestic and foreign statutory and regulatory time requirements, or, if the Sponsor decides not to take appropriate steps to protect the invention rights, it shall notify the Facility Contractor in sufficient time to permit either the Facility Contractor or the Government to file, prosecute, and maintain patent applications and any resulting patents prior to the end of such domestic or foreign statutory or regulatory time requirements.
- (2) The Sponsor shall convey or ensure the conveyance of any executed instruments necessary to vest in either the Facility Contractor or the Government the rights set forth in this article.
- (3) With respect to any Subject Invention in which the Sponsor obtains title, the Government retains a non-exclusive, nontransferable, irrevocable, paid-up license to practice or have practiced by or on behalf of the United States the Subject Invention throughout the world.
- (4) The Sponsor shall provide the Government a copy of any patent application filed on a Subject Invention within 6 months after such application is filed, including its serial number and filing date.
- (5) Preference for U.S. Industry. Notwithstanding any other provision of this Clause, the Sponsor agrees that neither it nor any assignee will grant to any person the exclusive right to use or sell any Subject Invention in the United States unless such person agrees that any products embodying the Subject Invention or produced through the use of the Subject Invention will be manufactured substantially in the United States. However, in individual cases, the requirement for such an agreement may be waived by DOE upon a showing by the Sponsor or its assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under the circumstances domestic manufacture is not commercially feasible.
- (6) The Sponsor agrees to refund any amounts received as royalty charges on any Subject Invention in procurement by or on behalf of the Government

and to provide for that refund in any instrument transferring rights to any party in the invention.

- (7) The specification of any United States patent applications and any patent issuing thereon covering a Subject Invention, the following statement. "The Government has rights in this invention pursuant to the Work for Others Agreement ([FY-nnn]) between Stanford University and Communications and Power Industries."

#### 4. Invention Identification, Disclosures, and Reports

- A. The Sponsor shall furnish the Patent Counsel a written report containing full and complete technical information concerning each Subject Invention it makes within 6 months after conception or first actual reduction to practice, whichever occurs first, in the course of or under this Agreement, but in any event prior to any on sale, public use, or public disclosure of such invention known to the Sponsor. The report shall identify the Agreement and inventor and shall be sufficiently complete in technical detail and appropriately illustrated by sketch or diagram to convey to one skilled in the art to which the invention pertains a clear understanding, to the extent known at the time of disclosure, of the nature, purpose, operation, and to the extent known, the physical, chemical, biological, or electrical characteristics of the invention. The report should also include any election of invention rights under this Clause. When an invention is reported under this paragraph 4.A, it shall be presumed to have been made in the manner specified in Section (a)(1) and (2) of 42 USC 5908.
- B. The Facility Contractor shall report Subject Inventions it makes in accordance with the procedures set forth in contract DE-AC02-76SF00515. In addition, the Facility Contractor shall disclose to the Sponsor at the same time as disclosure to the Department any Subject Inventions made by the Facility Contractor under this Agreement and the Sponsor shall notify the Department within 6 months of receipt of such disclosure by the Sponsor of any election of patent rights under this Clause.
- C. Requests for extension of time for election under subparagraphs A and B may be granted by Patent Counsel for good cause shown in writing.

#### 5. Limitation of Rights

Nothing contained in this patent rights Clause shall be deemed to give the Government any rights with respect to any invention other than a Subject Invention except as set forth in the Facilities License of paragraph 6.

#### 6. Facilities License

In addition to the rights of the Parties with respect to Subject Inventions, the Sponsor agrees to and does hereby grant to the Government an irrevocable, non-exclusive, paid-up license in and to any inventions or discoveries regardless of when conceived or first actually reduced to practice or acquired by the Sponsor, which at any time, through completion of this Agreement, are owned or controlled by the Sponsor and are incorporated in the facility as a result of this Agreement to such an extent that the facility is not restored to the condition existing prior to the Agreement (1) to practice or to have practiced by or for the Government at the facility, and (2) to transfer such license with the transfer of the facility. The acceptance or exercise by the Government of the aforesaid rights and license shall not prevent the Government at any time from contesting the enforceability, validity, or scope of, or title to, any rights or patents herein licensed.

7. Early Termination of Agreement

The terms and conditions of this article shall survive the Agreement, in the event that the Agreement is terminated before completion of the Statement of Work.
